THE $100,000 QUESTION

TYPICAL MCA

$130–150K

repaid on $100K advanced, pulled from your sales every single day.

FEENIX

Interest only

6–10% fixed, monthly, with up to 100% of principal forgiven over 4 years.

WHY WE CAN AFFORD TO FORGIVE IT

- **We earn on processing, not on your loan.**
  The capital starts the relationship; the processing partnership sustains it.
- **Your processing rate is set at signing.**
  We are not looking to raise it later. The economics work at your everyday rate.
- **Yes, it sounds too good to be true.**
  It is simply a different model: five years of processing together is worth more to us than your loan balance.

feenix CAPITAL

A Stronger Tomorrow. Together.

WHY THE LOAN CAN BE FORGIVEN.

A long-term partnership model built around merchant processing.

HOW THE FEENIX MODEL WORKS

1 CAPITAL TODAY

Feenix provides growth capital to start the relationship.

2 5-YEAR VALUE

Processing economics over five years can exceed the original loan amount.

3 10+ YEAR VALUE

Feenix expects the average merchant relationship to last more than ten years.

FEENIX'S LONG-TERM EQUATION

5-year processing value > original loan | Years 6-10+ add long-term value

OUR SOLUTION

YOUR BUSINESS GETS CAPITAL TO GROW. FEENIX BUILDS VALUE THROUGH THE RELATIONSHIP.

You receive growth capital and process with Feenix. Feenix earns through the ongoing processing relationship. When the program requirements are met, the principal is forgiven according to the agreed schedule.

THE BOTTOM LINE

Feenix can forgive the principal because **the value of a five-year processing relationship can be greater than the loan** – while long-term merchant relationships can continue creating value beyond Year 5.
